

# TOSHIBA

## Satellite L30

Discover a world of easy mobility.

15.4" widescreen display !

### Affordable performance in a stylish design

- This stylish-looking notebook comes in a sleek, light design weighing just 2.74 kg
- An Intel® Celeron® M processor offers the perfect balance of high-performance mobile processing technology and exceptional value
- Outstanding 15.4" WXGA display for amazingly brilliant, sharp colours to show movies in full widescreen glory

### All-in-one convenience

- Microsoft® Windows® XP Home Edition software pre-installed
- Enhanced mobility with Toshiba ConfigFree™ software for simplified wireless and wired connectivity
- Microsoft® Office OneNote™ 2003 to easily capture, organise and share notes

- Windows® Vista™ Capable PC to meet the requirements to deliver the Windows Vista core experiences such as innovations in security, reliability, organizing and finding information.

### Multimedia and digital entertainment on the move

- Integrated DVD Super Multi drive (Double Layer) for up to 8.5 GB of data storage, multimedia recording and playback of CDs and DVDs
- Stereo speakers with Toshiba Bass Enhanced Sound System
- Features ATI Radeon® Xpress 200M graphics technology with up to 256 MB video memory
- Toshiba Disc Creator lets you store movies, sounds, files and pictures easily to CD

### Easy wired and wireless connectivity

- Ethernet LAN port for fast wired network connection
- Connect to hotspots or wireless networks with integrated Wireless LAN

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: [computers.toshiba-europe.com](http://computers.toshiba-europe.com) and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at [computers.toshiba-europe.com](http://computers.toshiba-europe.com). • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • SRS® TruSurround XT™ is only available for WinDVD applications. SRS® WOW™ is only available for Windows Media Player 9 in standard Windows interface. Please check your system specifications to ensure optimal results. • Microsoft® Office OneNote™ 2003 is not available in all countries. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. • Not all Windows Vista features are available for use on all Windows Vista Capable PCs. Check: [www.windowsvista.com/getready](http://www.windowsvista.com/getready) for details.

TEG September 2006, Art. No. EN\_SatelliteL30\_DataS\_Sep06. Microsoft, Windows and Windows Vista are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices and system component/options availability are all subject to change without notice. Product design specifications and colours may vary from those shown. Errors and omissions excepted.
